WORK LOGS

Date	Number of Hours	Description of Work Done
September 24, 2026	0.67	Brainstormed initial app ideas and compared possible directions for the project
October 1, 2026	0.25	Project Idea Meeting
October 3, 2026	1.25	Created the project schedule, including milestones, task breakdown, and deadlines
October 5, 2026	2.00	Finalized the app idea and defined its main concept, target users, and core features
October 7, 2026	2.00	Wrote the proposal document mainly introduction and preliminary list of features, and prepared the materials for submission
October 15, 2026	0.83	Watched the video of Requirement Gathering and studied for it.
October 18, 2026	1.00	Learned Figma with an example of WhatsApp.
October 19, 2026	1.33	Wrote the progress report.

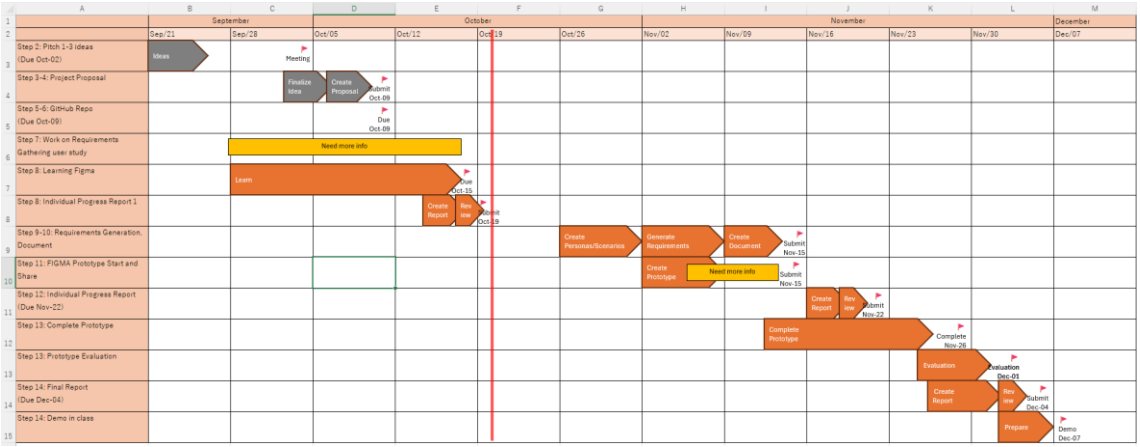

DESCRIPTION OF WORK DONE

- Ideation/Proposal

My team member, Alex, and I have decided to mainly adopt my idea for this project, so I primarily worked on the introduction and the preliminary list of features for the proposal document, since they explain the idea of this app.

- Project schedule

It is not within the scope of this project; however, I made a tentative schedule for my team members showing what needs to be done by when. It will help us proceed with the project smoothly.

- Requirement Gathering

I watched the video “UserStudy_RequirementsGathering” on Blackboard to understand what we will have to do for the next step. Concrete actions have not been stated yet.

- Learning Figma

To practice Figma, I looked through the WhatsApp example and tried to imitate it. I chose WhatsApp because our project will have some similar functions, such as chatting. I will need to spend more time getting used to Figma.

APPENDIX A — AI PROMPT HISTORY

- I'm making a progress report for a project. Please check the English grammar.

  Description of work done

  Ideation/Proposal

  My team member, Alex, and I have decided to adapt mainly my idea for this project, therefore, I primarily worked on introduction and preliminary list of features for the proposal document as they are explanations of the idea of this app.

  Project schedule

  It’s not the scope of this project, however, I made a tentative schedule to be aligned with my team number, what needs to be done by when. It will help us proceed the project smoothly.

  Requirement Gathering

  I watched the video of UserStudy_RequirementsGathering to understand what we will have to do for the next step. Concrete actions haven’t been stated ye.

  Leaning Figma

  As a practice of Figma, I looked through and tried to imitate the example of WhatsApp. I picked up WhatsApp because our project will have some similar functions such as chatting. I will need to spend more time to get used to Figma.
